Gardella To Speak Friday

Nagy Assails Assessment Practices In California

Steve Gardella, a candidate for San Diego County Sheriff, will be the guest Speaker Friday at the noon-luncheon meeting of the Lemon Grove Men's Club.

Last week John Nagy, candidate for County Assessor, spoke to the club about taxes and tax assessment procedures in California.

"There are many inequalities in tax assessment. The burden of taxation has fallen on the business, homeowner and farmer," Nagy related.

Vacant Lots

"I am for equalizing assessments so homeowners would not have to pay more than their share. Vacant lots and slums would be apportioned to market value as lots and homes, businesses and lands being farmed.

"Vacant land held for speculation is sometimes assessed as low as one per cent of market value. Homeowners are generally assessed at 25 per cent. The Grossmont Junior College property in Santee was assessed at time of purchase, at 2.4 per cent of market value. Homeowners are assesed at 10 times that and more.

Nagy, president of the Statewide Homeowners Association and a real estate appraiser, in hitting at slums said, "Under present assessment practices, slums are the most profitable investment in town while good housing is a risky business. Slum owners pay low taxes, receive high rents, have few vacancies and little upkeep. They are generally assessed at 10 per cent of their market value.

Urban Renewal

Nagy also said he was against federal urban renewal. He cited a case where a slum was torn down and a 10 million dollar complex of expensive apartments replacing it. "They needed $80 a month apartments, not $325 a month apartments. The low cost apartments would have cost one million dollars. Instead, 10 million dollars was spent and there are over 60 per cent vacancies with only the slum owner and developer benefiting. The people have not moved back in."

Nagy added, "When people talk about clearing up blighted areas of downtown communities, why don't they suggest that the owners of the property clean them up. Where is their pride in their community; the federal government doesn't own the slums."

Cites Experience

In discussing his qualifications for the job, Nagy said, "As a real estate appraiser and researcher in the assessment practices field for over 12 years, I have more experience for the job of County Assessor than anyone else. I have participated in tax seminars and have studied assessment problems thouroughly. The appointed assessor is not qualified for the job. He has never had any experience in appraising or assessment.

Nagy also commented on the recent tax assessment scandals. "I feel some of the problems involved in assessment practices have been brought about by discrimination against business properties. They are overassessed.

Oust O'Connor Says Gardella

Stephen Gardella, a crime laboratory technician with the San Diego Police Department, made a tour of speaking engagements in the Lemon Grove-Spring Valley area in a last-minute flurry of vote-getting in his race for Sheriff.

Gardella

Gardella, a Marine veteran with 20 years of law enforcement experience, charged that the present sherrif's administrative ineffectiveness is proven by a series of deaths in County Jail — one by strangulation and two by narcotics poisoning. There was also the maiming of one prisoner by another. All of these people were serving time for crimes, said Gardella. "How does Sheriff O'Connor propose to solve the Del Mar slayings when he can't even control what's going on in his jail," Gardella said.

"Due to these and other crimes, it is time to stop this weak type of law enforcement and elect a man who will not only give security to those unfortunates in jail but provide more safety for defenseless citizens," Gardella added.

Harold Hughes To Be Honored

A reception and dance will be held in honor of Harold G. Hughes June 17 at the El Cajon Elks Lodge, 1400 E. Washington St., from 7:30 p.m.-1a.m.

Hughes will assume the duties of superintendent and president and the Grossmont Junior College District on July 1. He will have served the Grossmont Union High School District for 30 years at that time.

Reservations may be made by calling Mrs. Georgina LaMoe at 465-3131, ext. 249. Tickets are $1.50.

Fire Prevention Campaign Starts

The Lemon Grove Fire Department is currently conducting it's annual campaign on fire-hazardous fields and lots in the Lemon Grove Fire District.

With the above average rain fall this last season, lots and fields in the District are waist high with dry highly flammable weeds. Property owners are currently being contacted by the Fire Prevention Bureau requesting abatement of this hazardous condition.

Three methods are suggested by the bureau to rid the property owner of this problem:

1. Cut the weeds down.
2. Plow them under.
3. Burn them.

"To the average property owner who has had no experience with the burning of large areas, it is suggested that the safest methods are the first two. For the owner who feels that he can accomplish a burn job, be sure to take all the necessary precautionary measures to assure a safe job. For necessary information call the Fire Dept. at 466-0564," Captain Ray Carmody said.

"The Fire Department's principal interest is the protection of your property in this campaign; so if you are a property owner and this condition describes the condition of your property, help us help you get rid of that hazard."

The DIMMER VIEW

by MAX GOODWIN

A Traffic Bureau is Viewed

It isn't exactly what we had in mind, but the Assembly Subcommittee on Administration of Justice is proposing sweeping new legislating on handling traffic offenses.

There has long been a need for modernizing the whole traffic set-up. There is an inequity in the present arrangement which breeds disrespect for the law. The person who feels himself innocent of a traffic charge is faced with the choice of paying $15 or $20 bail, or taking two days off to prove his innocence. In the latter case his loss is perhaps $50 or $60 in wages.

The Subcommittee wants to reclassisfy minor traffic infractions as non-criminal offenses so that they may be heard and judged by a bureau rather than a court. In New York, Pennsylvania and New Jersey they do it that way now.

Under a proposal by the Subcommittee a quasi-judicial commission presided over by a court commissioner would handle the cases. Quasi-judicial is bureaucratese for having the power but not the responsibility.

Well, that's what we need. Another bureau.

We have long been proponents of a night court for traffic violators. We need a system of courts far more than we need another bureau. It costs no more to hire a judge, responsible to the people by election, than it does to appoint a political hanger-on who might have the brains of a linnet. By using the courts at night we would be doing what many responsible people have suggested about schools. We'd be getting another shift of some very expensive facilities.

A bureau sitting in judgment of persons accused of breaking the law via traffic violations bypasses the philosophy of a fair trial. Bums that may be given the job of commissioner by political patronage can make a mockery of jurisprudence. Such a commissioner will not need to be capable enough to face re-election. All he'll have to have is a back-pat from the head of the bureau. Such bureaus will sap the vitality of the once-proud arm of the judiciary.

If people, instead of a system of political patronages were to be considered by the Subcommittee they would put courts on two shifts, reserving the evening shift for traffic. They would also order the State Department of Motor Vehicles to be open on Saturdays, or a couple of nights a week, so that drivers might take tests without taking off time from work. The schedule now in effect at the DMV is not for the benefit of working drivers.

State leadership should begin to believe that there is nothing wrong with serving the people who pay the bills. Presently, most departments are operated at the convenience of the employe of the department.

Sadly we contemplate the burgeoning ranks of bureaucrats which are self-perpetuating. So great is this group's determination to continue to expand that nothing short of a revolution will cause the pendulum to swing in favor of the people.

It's Not Right

At some veterans' posts they've been hanging Senator Wayne Morse in effigy. That's not right.

In a country as rich as this, we should be able to afford the real thing.

Insurance Firms Merge

The John Dail Insurance Co. at 7898 Broadway, Lemon Grove, was merged this week with the Kunkel - Botts Insurance Ageny of San Diego.

The combined firms will be operated from the Lemon Grove address, according to Mrs. Jonn Dail.

Frank Botts and Kenneth Kunkel have been in the insurance business for many years. Botts, who lives in Green Valley, has been an agent for 17 years.

Kunkel, who lives at 7274 San Miguel Ave. in Lemon Grove, has been in the business 25 years.

A combination of growth and the illness of her husband contributed to the decision to merge. We have known these men for many years," she said. "When we needed more personnel we decided to form a merger with Kunkel-Botts instead of training new men. The merger will serve our needs for the immediate future," she said.

Botts said the business climate in Lemon Grove looks more promising than anywhere in the County. "We look forward to a healthy, long-term growth," he said. Botts is a member of San Diego Masonic Lodge no. 35.

Kunkel, is a Certified Life Underwriter who has lived in Lemon Grove since he started in the insurance business 25 years ago. He is past master of Santa Maria Masonic Lodge no. 580. The lodge is in Ramona.

Small Business Administration Back in Lending Business

The San Diego office of the Small Business Administration announced that it is again accepting business loan applications on the following basis:

Direct loans up to $50,000.

Immediate bank participation loans with SBA's share not exceeding $100,000.

As in the past, SBA will continue to accept guaranteed loan applications up to the legal maximum of $350,000, exclusive of the bank's shares. Guaranteed loans are made by banks with an SBA guaranty of 90 percent of the full amount. They do not require an immediate outlay of Government funds.

The reopening will end a moratorium declared last October on SBA business loans because of unprecedented demands.

Quimby said, "Just as banks must be selective, SBA also must assure that its resources are used in the most effective and productive manner. Therefore, we have established a system of priorities to be used by our office in reviewing loan requests."

John Quimby, Regional Director of SBA, listed the priorities as:

Loans to defense oriented industries;

Loans resulting in a substanstantial increase in employment or loans to businesses located in areas cited for persistant unemployment in the Department of Labor's "Area Trends in Employment and Unemployment;"

Loans to businesses contributing to a reduction in the balance of payments defifit through export sales;

Loans to businesses contributing to a reduction in air and water pollution;

Loans made in the public interest on the basis of local economic needs.

Local development loans are made to privately organized state and local development companies — private citizens interested in the economy of their community. These companies finance small businesses in their areas. The loans are used to attract new industries and create jobs.

Under the program, loans of up to $350,000 can be approved for a single project.

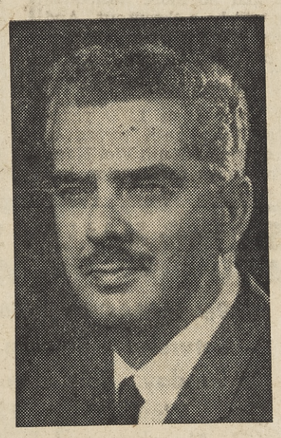
ELECT W. EARL SMART

LT. GOVERNOR

PRIMARY — JUNE 7, 1966



IF YOU WANT LEADERSHIP STEMMING FROM THE GRASS ROOTS LEVEL

LOOK WHAT THE NEWSPAPER SAYS:

'Lack of Leadership In Sacramento' Says Lt. Governor Candidate Smart

by Norm Hutsell

"The Watts, Berkley, narcotics, crime, school admini'tration and tax problems are a sympton of the breakdown of moral and ethical concepts," W. Earl Smart, Lemon Grove attorney, told Lemon Grove Men's Club members Friday at a noon-luncheon.

Smart, presently campaigning for the Republican nomination for Lieutenant Governor of California, spoke on a variety of politically-oriented subjects, including the Watts, Berkley, and narcotics problems.

He said Sacramento has failed in its handling of many of the state's problems. He pointed out Watts as "an example of leadership in Sacramento."

Brown's Fault

"Braden and Hand have raised an attack upon Anderson that isn't appropriate. They say Anderson caused it. The real fault is with Brown." Braden and Hand are both running for the Democratic nomination for Lt. Governor against incumbent Glenn Anderson.

Smart also discussed the differences between the two major political parties in California. "One is dependent in its relationship with the federal government. The other is independent. We should be co-equal partners."

In further comment on Braden and Hand, Smart said the former "doesn't know what the word 'guts' means." "He is prone to go to small pressure groups hat in hand."

"Reject Hand"

"Hand should be rejected by both Republicans and Democrats because he is more interested in the impact of California on the Federal Government scene rather than internal problems."

Smart said Anderson does not have an impact upon the people whom he deals with"

On taxes, Smart said, "Business is being taxed out of existence because of the inventory tax. Property tax should be more fairly evenly distributed."

Transit Systems

He also said he is for a reappraisal of transit systems throughout the state and to look into electrical transportation.

Other Smart comments:

Schools — Why is it necessary to maintain construction philosophy of horizontal plane? Green grass doesn't educate even though it might look pretty. Subterranean and high-rise construction should be looked into.

Welfare — We need to re evaluate the basis on which welfare is distributed. Unqualified residents who are shown to be taking advantage of welfare should be sent back to their home states The continuing need should be determind on availability of jobs. If a bonafide job opportunity is refused, the welfare should be terminated.

Peace Corps Test June 11

San Diego area residents interested in putting their skills to use in developing nations around the world are invited to take the Peace Corps Placement Test at 9 a.m. on Saturday, June 11, at Room 219, Post Office Building, 815 E. St.

The Peace Corps uses the Placement Test to determine how an applicant can be utilized overseas. The Test measures general aptitude and the ability to learn a language, note ducation of achievment. (If Test score indicate a limited language-learing ability, for example, the Peace Corps tres to place the applicant in an English-speaking country.) The placement Test requires no preparation and is non-competitive — an applicant can neither pass nor fail.

The application form, not the Placement Test, is the most important factor in the selection of Volunteers. Persons interested in serving in the Peace Corps must fill out an application, if they have not already done so, and present it to the tester before taking the Test. Applications may be obtained from local post offices or from the Peace Corps, Washington. D. C. 20525.

The Placement Test takes about an hour and a half.

Committee Formed

Dan McCorquordale, former former Chula Vista Vice-Mayor announced the formation of a labor committee composed of active leaders in the labor movement.

McCorquodale stated, "I am happy to announce the membership of my Labor Committee consisting of: John Hayes, president, Carpenters' Local No. 1490; Ralph Howard, Carpenters' Local No. 1296; George Hall, immediate past president of the Rohr Welders; Clint Williams, president of the Machinists' Local in Chula Vista; and Fuz Saurez, National City member of the Machinists' Union.

Politics In Brief

JOHN STULL

The action of five California Supreme Court Justices in voiding Proposition 14 was criticized by John Stull, Republican Candidate for Assemblyman in the 80th Assembly District.

Stull noted that Proposition 14 was approved in 1964 by the people of California by landslide proportions, better than 2 to 1.

"In Sacramento today," said Stull, "the voice of the people is ignored. If this clear-cut mandate from out of every 3 voters in California can be voided by five men, then the people are being controlled by men, not law.

"I believe that if a vote were taken today, the people would approve Proposition 14 by an even greater majority. But what would be the use? I repeat, the people just don't count," Stull added.

JUD LEETHAM

Jud Leetham, Republican candidate for State Attorney General, hit the California Republican League for passing a resolution that implied endorsement of civil disobedience, and also his opponent in the June primary election for not speaking out against the resolution.

Leetham said he believes the resolution "will be an albatross around the neck of a candidate for Attorney General."

The resolution, passed at the recent CRL Convention in San Francisco, said, in part: "If and when the names of legal recourse are demonstrably inadequate . . . we recognize the right of all persons . . . to challenge such laws . . ."

"This was an ill-advised resolution," Leetham told his audience, "and I can't see how any candidate for Attorney General, who is chief law enforcement officer of the state, could condone any resolution that implies disobedience of the law.

Leetham also took a slap at Democrat Attorney General, Thomas Lynch, and Governor Brown when he discussed the high crime rate in California.

Brown appointed the incumbent to his Attorney General post in 1964.

RONALD REAGAN

The former Morrison-Adams Jewelry store on Broadway in Lemon Grove has become the "Reagan for Governor" headquarters, it was announced by Mrs. Mary Ellen Young, chairman.

Mrs. Young said that the membership of the Lemon Grove Republican Assembly, of which she is president, has provided much of the manpower for staffing and setting up the office.

Volunteers are asked to call 460-2651 for information. The public is cordially invited to visit the headquarters.

JOHN NAGY

The appointment by the current appointed assessor of an out of county chief deputy was criticized by John Nagy, candidate for the office of Assessor.

Nagy charged, "Since the appointed assessor is not a qualified appraiser himself, he should have appointed a No. 2 man who was qualified. The main problem in the past has been a lack of leadership, which has caused many of the trained staff to leave the assessor's office for positions with private firms in the county."

Nagy is a real estate appraiser and property tax consultant, and has for several years been a critic of assessment pratices throughout the state.

In his statement recently Nagy said, "My slogan in this campaign will be, "Try San Diego First." There is no reason why this county has to transplant its assessor or its chief deputy assessor from outside the county. There are plenty of qualified people right here."

GOV. BROWN

Governor Edmund G. Brown has challenged his political opponents—"the Republican candidates for governor, all of them, and the Republicrat I am opposing in the primary—to start waging campaigns on the issues and their proposals for building a better California."

Alaska's major ports are located in the state's panhandle.

CLAIR BURGENER

A law allowing each taxpayer his "day in court" has been signed into law by Governor Brown.

The new law will allow the establishment of a San Diego County Tax Appeals Board. The bill was authored by Assemblyman Clair W. Burgener (R-San Diego). Under the legislation, any taxpayer may have his "day in court" practically on a year round basis. Under the present system, the taxpayer who wishes to appeal his assessment is faced with an extremely limited time in which to file his appeal and have it heard.

The new Tax Appeals Board which will consist of three members nominated by the County Board of Supervisors will have no other function except hearing and acting upon tax appeals. Under present law, the Board of Supervisors sits as a Tax Appeals Board for less than one month during each year.

"I am convinced that one of our most serious problems is in the area of property taxes," Burgener said. "Mounting taxation and, in some cases, inadequate assessments," he continued, "combine to act as a serious deterrent to healthy economy and growth in our county."

WILLIAM PATRICK

William Penn Patrick, GOP gubernatorial candidate, has leveled a scathing attack at the University of California at Berkeley for allowing its facilities to be used "for the lowest of all possible purposes — the spread of Communism."

Patrick blasted the University and president Clark Kerr for allowing recognized Communists to use the steps of Sproul Hall "to spread their filthy mantle of untruths."

"I have said before — and I say again — when I'm elected Governor there will be no more sit-ins and no more walk-outs. There will be a throw-out. And the first to go will be the president of the University, Clark Kerr."

For more than 1,000 years Chinese have been trying to gain control of South Viet Nam, but resistance to invasion has been strong.

JESSE UNRUH

"I support lowering the voting age to 18 and I intend to press actively for its accomplishment in California this coming year."

This was the statement of Assembly Speaker Jesse M. Unruh in a lecture Monday to political science students at the University of Washington, Seattle.

The average age of our population is growing younger each year," Unruh said. Half the people in California are 25 years of age or younger. This will be true of all the United States within the next 3 or 4 years. These younger people will change the complexion of government and politics profoundly — in fact those changes are already taking place.

Throughout our history, we have insisted that freedom can best be achieved through representative government and majority rule. We have gradually extended the voting franchise to more and more of our adult population because we believe that government can be representative only if those being governed can participate in its process, and the right to vote is the great symbol of participation in a democracy.

"As the younger age group becomes proportionately larger in our population, we are rapidly approaching a condition of government by minority because almost half our citizenry will be below the age of 21. I think it is time we extended the franchise to more of our young people," Unruh said.

Deadwood, S. D. derived its name years ago from the amount of driftwood which had accumulated there. The wood was convenient for pioneers in making campfires.

San Diego Employment Sets Two Records in Row

An all-time peak of employment of 330,000 persons was reached in San Diego County during April, according to the California Department of Employment.

The total was 2,000 more than March when the total reached 331,000 for a record.

The current figure represents an increase of 16,500 or 5 percent over the April 1965 level.

Manufacturing, with a boost from the aerospace group, was up 5,500 over last April and comprised about one-third of the overall gain. Government employment showed a rise of 4,900 over the year with 2,700 of the additional new jobs in public education. The trade and service groups increased by 2,600 and 1,800 respectively while contract construction, the only major employment division to show a decrease over the year, was down by 700.

Factory payrolls showed a net rise of 500 workers since March as durable goods employment gained 600 and the number of soft goods workers was down 100 from the previous month. The increase in the number of hard goods workers was due to a gain of 500 in aerospace employment and a 100 boost by the wood, furniture, and fixtures group. The only change in nondurable goods was a setback of 100 in food processing.

The other night a female voice called me on the phone and told me I had won numerous prizes . . . a transistor radio, some dog food, a boy scout knife, bubble gum, etc. Just one thing, though . . . I had to give them the SECRET WORD. Quick as a flash I told them the secret word was "SWORDFISH"! This is my favorite secret word that I stole from the Marx Brothers back in 1931. I was told I had won, but I had to call a local radio station within five minutes or they wouldn't send me the prizes. I didn't call them back. I had the feeling I was being kidded and, anyway, I'd like to have a prize trip to Hawaii.

What would any supplier do about—or for—a customer whose needs *doubled* in just ten years? Plenty, of course. As in this example: last year, collectively, the schools in San Diego County consumed about a billion gallons of water—and ten years ago they used just half that much. The "supplier" in this case is the San Diego County Water Authority—which brings 90% of that water 300 miles from the Colorado River. And our expanding school system provides just one example of how the San Diego County Water Authority, through careful long-range planning and the visionary voting of county citizens, meets all of our advancing water requirements at the lowest possible cost.

The said Board of Supervisors hereby determines and declares that serial bonds shall be issued to represent each assessment of Fifty Dollars ($50) or more remaining unpaid after the last date for payment of assessments, as specified in the statement provided by Section 5390 of the Streets and Highways Code of the State of California. Said statement shall be mailed to each property owner within the assessment district at least thirty (30) days prior to the last date for payment of assessments. Said serial bonds shall extend over a period ending nine (9) years from the second day of January next succeeding the next September first following their date, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year following the next September first after their date until the whole is paid. The contemplated work and improvement hereinbefore mentioned is in the opinion of said Board of Supervisors, of more than local and ordinary benefit to the public and the expenses of such work and improvement are made chargeable upon the district hereinafter described, and said Board of Supervisors does hereby declare said district to be the district benefited by said work and improvement, and to be assessed to pay the costs and expenses thereof. Said district is described as follows, to wit: All that real property in the County of San Diego included within the exterior boundary lines of said district as shown upon that certain map bearing Improvement Act Area No. 174 indicating the exterior boundary lines of such district, which map, approved by said Board of Supervisors, is on file in the office of the Clerk of said Board of Supervisors of the County of San Diego as Document No. 373531, excepting therefrom all public streets, roads, alleys, avenues and highways. The said Board of Supervisors has heretofore directed the Superintendent of Streets in accordance with Section 5254.5 of the Streets and Highways Code to include in the contract a provision for liquidated damages in case the work called for under the contract is not completed within the time limit as prescribed by the specifications and contract (or such extension of time as may be granted by said Board), and has fixed the sum of $50.00 per day for each and every calendar day's delay in completing the work in excess of the number of calendar days prescribed.

It is the opinion of said Board of Supervisors that the public interest will not be served by allowing the property owners to take the contract for the work to be done under these proceedings.

NOTICE IS HEREBY GIVEN that on Tuesday, the 21st day of June, 1966, at 11:00 o'clock a.m., in the chamber of the Board of Supervisors of the County of San Diego, Room 310, San Diego County Administration Center, 1600 Pacific Highway, San Diego, California, any and all persons having any objections to the proposed work or improvement, to the grade at which said work is to be done, or to the extent of the district to be assessed to pay the costs and expenses of said proposed work or improvement, may appear before said Board of Supervisors and show cause why said proposed improvement should not be carried out in accordance with this Resolution.

Such protest, if any, must be in writing and must contain a description of the property in which each signer thereof is interested, sufficient to identify the same, and shall be delivered to and filed with the Clerk of the Board of Supervisors of the County of San Diego, in Room 306 of said San Diego County Administration Center, not later than the hour hereinabove set for hearing. No other protests or objections will be considered. If the person signing the protest is not the owner shown on the last equalized assessment roll, the protest must contain, or be accompanied by, written evidence that such signer is the owner of the property.

The Clerk of this Board of Supervisors shall, upon completion of the mailing of said notices, file with this Board an affidavit setting forth time and manner of the compliance with the above requirements for mailing such notices.

The Superintendent of Streets shall, after the adoption of this Resolution of Intention, cause to be conspicuously posted along the line of said contemplated work or improvement, at not more than three hundred feet (300') in distance apart, but not less than three in all, notices of the passage of this Resolution of Intention, all in the time, form and manner required by law; and thereupon said Superintendent of Streets shall cause to be filed in the office of the Clerk of this Board of Supervisors an affidavit showing the posting of said notices of improvement.

All of the herein proposed work shall be done in pursuance of an Act of the Legislature of the State of California, designated as the "Improvement Act of 1911" and amendments thereto.

Doctors Sue Hospital Association

SAN DIEGO (CNA) — A Lemon Grove and a La Mesa doctor are among eight physcians who have filed a $600,000 damage suit in Superior Court against the San Miguel Hospital Association, Inc. The Association operates the non-profit Hillside hospital in San Diego, and the non-profit Heartland Hospital in El Cajon.

The two are Drs. Lawrence J. Crow of 9451 El Granito, La Mesa, and Thayer A. Crow, 7602 Pacific, Lemon Grove.

The eight doctors allege that they were dropped from the San Miguel Association without due process of hearings, as provided for in the Association's by-laws. As a result they had no longer a voice in administrative affairs.

The doctors remain on the hospitals' staffs.

LETTERS TO THE EDITOR

To the Editor:

Permit me to thank our many friends for all their thoughtfulness during these days since the passing of my husband. The cards, letters, calls, and flowers have meant so much, and brought great comfort.

The years we've spent in Lemon Grove have been most happy ones, as we served our growing community by providing yardage and dry-goods. After it became necessary to retire to conserve my husband's health, his love and interest in Lemon Grove never diminished. In fact his favorite diversion was chattng with friends and former business associates.

To each of you who has added so much to our lives, and have offered comfort to me in recent days, please accept my sincere thanks.

Mary B. Cressy

Dear Editor:

On behalf of Court Teresa of Avila No. 1580, Catholic Daughters of America, and myself, we thank you for the excellent publicity you gave for the fashion show "Roman Holiday."

Thank you for your wonderful cooperation.

Sincerely,

Politics In Brief

L. C. SETTLE

Anti-Delinquency Program Planned

By L. C. Settle

Sheriff's nominee L. C. Settle this week again denounced Sheriff O'Connor on his failure to provide anti-juvenile delinquency programs in San Diego County.

"A very important part of any law enforcement agency should be dealing with youth and working against juvenile delinquency," Settle explained.

"There are thousands of people in the county who would be willing to help in the development of youth programs which have yet to be organized."

Setle said there are many outstanding youth activities sponsored in the county — such as the churches, Scouts, YMCA, Camp Fire Girls and the PTA.

"But there aren't enough. Of all felony crimes, 57 per cent are committed by youths. This is something that can be combatted through channeling the energy of youth into worthwhile projects and recreational activities."

Projects proposed by Settle would include teenage dances, bowling, surfing, softball, horseback riding, track and basketball tournaments.

Settle said a major plank in his campaign platform calls for:

1. Development of a youth activities program through the Sheriff's Reserve to co-sponsor events with local civic and service clubs.

2. Organization of an unarmed Junior Sheriff's Reserve program, offering young men 18 through 20 an opportunity to assist adult deputies and learning skills toward a law enforcement career plus greater respect for law and order.

3. Appointing to the three non-civil service positions — which are the Sheriff's prerogative — skilled persons in the fields of youth work and liaison with the Sheriff's Reserve organizations.

Settle also said that another possible narcotics death occured at County Jail a few days ago. The explanation by the Sheriff's Department that a Federal law made it impossible to search prisoners properly is unwaranted. There were no known narcotics deaths in County Jail until O'Connor was sheriff, Settle added.

Settle also promised to lift morale of the department back to the high level it was before O'Connor took office and that he would save tax dollars by coordinating activities of the various agencies.

JAMES RASMUSSEN

County Tax Collector James P. Rasmussen believes that his office, which collects about 170 million dollars a year, has made some sort of a record in accelerating the flow of cash so that it can be deposited sooner with the treasurer for use to cover expenses or to be put out at interest.

In the last year his office has been sucessful in speeding the handling of tax payments by depositing large payments before the tax bills are processed so as to give the county the use of its money for a longer period of time. This additional time, for one year, has been tabulated as being equal to the use of one million dollars for 320 days.

Rasmussen is an candidate to retain the office of County Tax Collector for a new four year term.

DR. JOSEPH PACE

In a move almost unparalleled in the turbulent history of California politics, Mayor Joseph L. Pace, a medical doctor of San Jose, candidate for the nomination of State Controller on the Republican ticket, has slapped incumbent Democratic Controller Alan Cranston with a Writ of Mandate demanding that he turn over a list of earnings enjoyed by inheritance tax appraisers.

The writ is returnable in the Superior Court of Santa Clara County, Cranston's home county. The suit was filed today by Walter V. Hays of the San Jose law firm of Collins, Hays & Stewart.

Pace had his suit filed as a petitioner-taxpayer. He claims that under state laws Cranston is required to furnish such information to any taxpayer who asks for it since it comes under the heading of "public documents."

The mayor had announced two weeks ago that he would commence the action following a visit to Cranston's office where his demand for information wound up in a shouting match. Pace had come armed with a copying machine but Cranston told him that the "files were confidential and for my personal use."

SEN. AARON QUICK

State highway construction in San Diego County during the fiscal years of 1967-71 will provide more than 13 million direct man-hours of work, State Senator Aaron W. Quick, Democrat of Chula Vista, predicted recently. He made the estimate after reading a report on costs of proposed construction provided by John Erreca, Director of the State Department of Public Works.

"The department," Quick said, "reports that its projects provide about 60,000 man-hours of on-site employment for every $1 million of construction cost. In addition, off-site employment has been estimated by some authorities as being about 1½ times the on-site employment.

Christopher Barbecue Attracts 500 Supporters

More than 500 persons attended a barbeque for Governor's Candidate George Christopher Monday at the I. Solomon Ranch in Valley Center, north of Escondido.

Christopher blazed away again at the smear perpetrated by staff members of Gov. Brown. Christopher said that Brown wants Christopher smeared out of the race because he can beat Reagan.

Early Tuesday Gen. William F. Dean, famed Commanding General of the 24th Infantry Division in Korea, endorsed Christopher.

Flood Funds

The federal $1.5 million disaster allocation to California announced recently will free funds to complete emergency restoration work in the wake of the December 1965 floods in Southern California.

The State Disaster Office has approved $209,460 for San Diego County.

Golf has been popular in Scotland since the fifteenth century.

ROBERT FINCH

"A taxpayers' revolt" is brewing in California, according to Robert Finch, Republican candidate for Lieutenant Governor.

Finch, making his first bid for statewide office, said that the recent municipal elections in Southern California were "more than straws in the political winds—they are a clear indication that California's home-owners and renters feel they have reached the limit in what they can afford to pay in residential property taxes."

Finch, who directed Senator George Murphy's upset victory in 1964, said he "could not remember a time in the last 20 years when more incumbent city and county officials were turned out, or narrowly re-elected, including serveral with two or more terms in office. Nor can you overlook the fact that so many local bond issues and tax-over-rides have been defeated since the first of the year—11 out of 20 in Los Angeles County, 6 out of 10 in Orange County, and 5 out of 7 in Santa Barbara County.

PAUL SUTHERLAND
Republican
The Common Sense Candidate
for the 77th District
STATE ASSEMBLY

PAUL SUTHERLAND says, "I am seeking the office of State Assemblyman for the 77th District because I feel the time is NOW to have a complete re-evaluation of our State's fiscal policy. The hour is late; we must save our government if we want to preserve the true American way of life.

Sutherland says
The Time for Tax Reform IS NOW!

Paul Sutherland's Background
★ A 38-year resident of San Diego Paul Sutherland, 43 year old.
★ Educated in the San Diego school system.
★ Attended San Diego State College, California State Polytechnic College, and the University of Southern California.
★ He served as a coast guardsman in the North Atlantic during World War II and in North Africa during the invasion of that area.
★ Paul has owned and operated a system of parking lots, garages and car washes throughout San Diego County for the past 18 years.
★ Sutherland is a past member of the 20/30 club, the Young Republicans, and headed-up the Democrats for Eisenhower in 1952.
★ Sutherland is on the Board of Trustees in his church, was a member of the executive committee for the Billy Graham Crusade, and is a member of the board of directors for Youth for Christ, the Christian Sunday School Bus Committee and radio station KBBW.

SUTHERLAND says, "Progress is not measured by high taxes and countless programs and bureaus, but by government creating the proper climate for economic growth and development in individual initiative. Government is necessary and taxation is necessary. The question is the proper balance. Today, in the State of California, we have too much . . . too much taxes and too much government!"

SUTHERLAND charges the present democratic State administration as the worst in the history of the State, for the following reasons:

1. Highest crime rate in the nation.
2. Highest amount of unemployment in the nation.
3. Ever increasing taxes.
4. No effective state law to control obscene material.
5. Gross waste and duplication in State government.
6. The worst riots in our State's history (Berkeley and Watts)
